

# US Data Center Daily Briefing

June 30, 2026

## KEY THEMES

- Sabanci–Meta PPA covers 220 MWac across Lucky 7 and Pepper in Texas
- Pepper county listed as McLennan vs Falls across Sabanci's own releases
- India draft electricity data-sharing framework opens for comment by July 21, 2026
- APPA reports 225 GW ERCOT large-load queue, three-fourths for data centers

## Sabanci names Meta for two Texas solar plants – and lists Pepper's county two ways

Sabanci Renewables named Meta as the buyer for two Texas solar projects in a June 22, 2026 release – and in the same release moved one of them to a different county than its own project page lists. The release says Sabanci [entered a long-term PPA with Meta for “100% of the environmental attributes”](#) from the Lucky 7 Solar and Pepper Solar projects. The two total [220 MWac / 286 MWdc](#) and are targeted for second-half-2027 completion. Sabanci's project page places Pepper in McLennan County; the Meta release places it in Falls County.

- [India drafts a national electricity data-sharing framework](#) – The Ministry of Power asked for comments on the draft National Electricity Data Sharing Framework, 2026 by July 21, 2026; metadata catalogues would publish within 12 months and become portal-discoverable within 18 months.
- [APPA report logs public power's 2024 reliability and a 225 GW ERCOT large-load queue](#) – APPA's January–February 2026 magazine says ERCOT held about 225 GW of large-load interconnection-queue requests, roughly three-fourths of it for data centers.
- [Sabanci's interconnection agreements with Oncor are signed](#) – Both Lucky 7 and Pepper project pages state the Oncor interconnection agreements are executed and site control is complete.
- [ERCOT planning materials sharpen the Sabanci schedule](#) – An Oncor planning set lists Lucky 7 in Hopkins County at about 101.4 MW with a 9/20/2027 date.
