California Q3 2025 reaches record high ZEV sales

California reported a record Q3 2025 ZEV sales share of 29.1% with 124,755 ZEVs purchased (2,468,158 cumulative). The California Energy Commission adopted EV charger reliability standards, approved NEVI projects for 64 fast chargers, and authorized three grants totaling more than \$10 million to add 1,000+ Level 2 ports.
