Interior plan advances public lands sell-off and permitting changes

The Trump administration’s Interior Department has unveiled a new five-year Strategic Plan and BLM planning rule proposal that would advance public lands sell-offs and weaken land-use protections. The plan explicitly seeks to “decrease the size of the federal estate” and also supports data center siting on public lands.

Canada approves Equinor’s Bay du Nord development plan

Canada and Newfoundland and Labrador have jointly approved Equinor’s Bay du Nord Development Plan, enabling the project to move toward a Final Investment Decision in early 2027. The proposed $14-billion offshore project is expected to generate $20 billion in government revenues and $50 billion in GDP over 20 years.
